What is cyberbullying?

Erasmus + project “Learn and participate”
Tallinn 2022

What is cyberbullying?

Cyberbullying is bullying that takes place over digital devices

Cyberbullying can occur through services where people can view, participate in, or share content.

Cyberbullying includes sending, posting, or sharing negative, harmful, false, or mean content about someone else

Common places

- Social Media, such as Facebook, Instagram, Snapchat, and Tik Tok
- Text messaging and messaging apps on mobile or tablet devices
- Online forums and chat rooms
- Email
- Online gaming communities

STOP ONLINE BULLYING!

If you feel uneasy with something happening online, ask for help!

[International child helpline](#)

Keep calm! Do not respond to provocation and threatening messages - make the screenshots

If you witness an incident of (cyber)bullying, ACT!

Watch OUT!

- Meeting with strangers can be dangerous
- What you see on the Internet is often not completely true.
- Take care of your personal data!

Play Safely!

- ★ Enjoy yourself without harming others. Bring kindness ONLINE!
- ★ Defend your privacy!
- ★ Respect yourself!

Let's chat!

Post mindfully!

Mind your digital reputation!

A stack of several colorful sticky notes (yellow, orange, and light blue) is piled on a light-colored, textured fabric surface. The topmost note is a bright lime green and features the phrase "PRACTICE MAKES PERFECT" written in bold, black, hand-drawn capital letters. The notes are slightly crumpled and overlapping, creating a sense of depth and focus on the central message.

**PRACTICE
MAKES
PERFECT**

Happy Online Board game

The aim of the game is to be the first to arrive at the Finish square, answering correctly the various questions of the Challenge cards.

Challenge cards topics:

- Let's chat,
- Stop online Bullying,
- Watch out,
- Play Safely

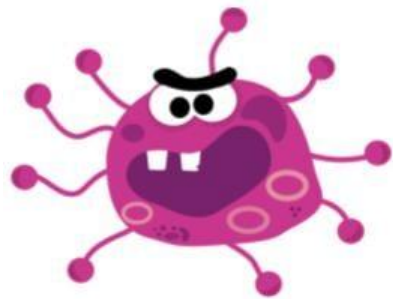

Anti-virus cards

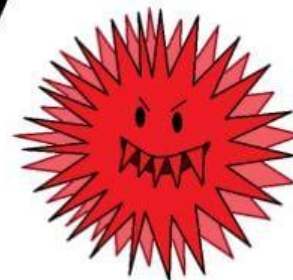

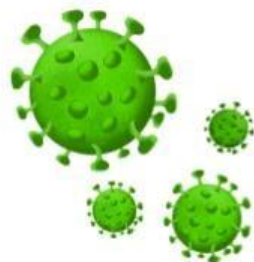

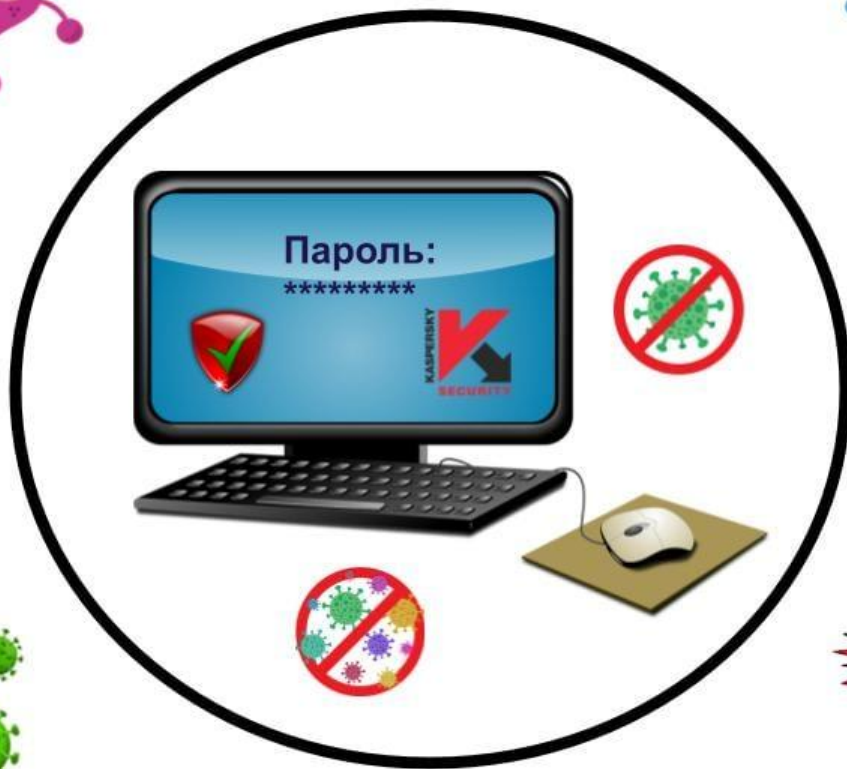

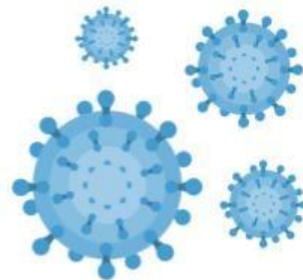

INTERNET SAFETY WEEK

During the Internet Safety week (14.02.2022-18.02.2022) in the frame of Erasmus + project “Learn and participate”, our primary school students actively studied about Internet safety rules, gave advice on the correct assumption of the Internet, and created digital posters. It can be verified that elementary school students are highly aware of internet safety and are aware of internet scams and behavior on social media and how to "get off the net".
